Mashaal Hamad Alshabari - مشاعل حمد الشبيري
@MashaalHamad

- Mashaal Hamad Alshabari, a 2014 graduate of Middle East Technical University, is a Creative Design Specialist in the "Design" category.
- His "System" for "The Future" is a concept of using AI and data to improve the human experience.
- The "System" aims to be a platform for a comprehensive communication and learning system that will revolutionize and transform the industry.
- Alshabari's vision and leadership in the industry are a testament to his innovative and forward-thinking approach to design and technology.

Panel discussion with several participants seated around a circular table. A woman on the left is speaking into a microphone. Other participants are listening attentively. The setting is a professional event space with a high ceiling and exposed metal truss structure.
