BIOGRAPHY

I was born in Naberezhnye Chelny, Tatarstan, in 2000. My father is an electrical engineer. My mother is a dance school employee.

In 2007 I've got admitted in school. In 2009 I became a student of music school. After leaving school in 2018, I got into Naberezhnye Chelny State Pedagogical University and my majors were English and Pedagogy. We had different types of practice in schools as covering ordinary periods of English and German as well as homerooms.

As for my hobbies, I prefer Art in many different ways. I do poems and artworks, sometimes combining both. There are some of mine in magazines like "Корень из минус Ять" and different compilations.

From 2017 up to 2020 I did drumming with fellow musicians on rehearsal. Now I prefer guitar to drums, but mostly I play all alone at home nowadays.
