Policy for Sustainably Farmed Food on Campus

Description:

The University of El Oued is dedicated to ensuring that all food sourced or produced on campus adheres to sustainable farming practices, promoting environmental stewardship and supporting local biodiversity.

Purpose:

To align with Sustainable Development Goal 15, this policy ensures the use of sustainably farmed food, minimizes the environmental impact of food production, and promotes health and well-being on campus.

Scope:

This policy applies to all food served, grown, or distributed on university premises, including cafeterias, research farms, and campus-based events.

Policy Guidelines:

1. Ensure all food sourced for campus consumption meets sustainability criteria, including reduced pesticide use, water conservation, and ethical farming practices.
2. Support the planting of fruit-bearing trees on campus, such as lemon, orange, and guava trees, to foster local food production.
3. Collaborate with local agricultural organizations to source sustainably farmed products.
4. Educate students and staff on the benefits of sustainable farming through workshops and practical activities.

Compliance:

The policy will comply with Algerian Law No. 10-03 on environmental protection.
